Summary

Enthusiastic and detail-oriented **Frontend Developer** with a strong foundation in **HTML, CSS, JavaScript**, and frameworks like **React.js, Angular** and **Bootstrap**. Skilled in creating responsive, userfriendly web interfaces and implementing modern UI/UX principles. Passionate about building clean, accessible, and interactive web applications. Eager to contribute to realworld projects and grow as part of a dynamic development team.

Professional Experience

Software Engineer (Frontend Developer)

TVM Infotech Private Limited, Chennai - May 2025 – November 2025 (6 Months)

During my tenure at TVM Infotech Private Limited, I developed responsive UI components using HTML, CSS, and JavaScript, and worked extensively on frontend modules using Angular (TypeScript). I implemented reusable components that enhanced UI performance and collaborated closely with backend and QA teams to ensure timely and high-quality feature delivery. Throughout the project, I followed UI/UX best practices and maintained version control using Git.

Education
